TRAINER

CLELIA LACCHI
Référéndaire
EU Court of Justice

The course offers an in-depth and practical approach to the mechanisms established by the European Union to promote and defend the environment as a foundational value. The course is designed to provide participants with a working knowledge of the relevant legal and regulatory frameworks, and the practical application of the tools at the disposal of the EU. This will allow the course participants to enhance their literacy and achieve their own role as natural judges of European law more successfully.

Scientific organisation: Francesca Ippolito and Luca Pantaleo
